PROFILE

As an aspiring Flutter developer with a strong foundation in database management using Firebase and MySQL, I am eager to take on new challenges and grow my skills in application development. With a keen eye for detail and a determination to learn, I am committed to creating user-friendly and efficient applications that make a positive impact. Join me on this exciting journey as we embark on the path of becoming skilled application developers together!

PROJECTS

Dynamic Image Gallery App using Flutter

Developed a robust Flutter application that revolutionizes the way users explore high-quality images. Leveraging the power of the Pixabay API, the app effortlessly fetches a vast collection of visually stunning images, providing users with an immersive and dynamic image gallery experience. With seamless integration and a user-friendly interface, this project highlights my expertise in Flutter development, API integration, and creating visually appealing applications that captivate users.

Responsive Website in Flutter

Proficient in developing responsive websites with Flutter, I seamlessly blend style and functionality to create captivating online experiences. Leveraging the versatility of Flutter's framework and UI components, I design visually appealing websites that adapt flawlessly to any screen size.

Todo Application

Developed a sleek and user-friendly Todo application using Flutter, allowing users to effortlessly organize and prioritize their tasks. With intuitive features like task creation, due date reminders, and seamless synchronization, this app enhances productivity and helps users stay on top of their daily responsibilities.
